SUMMARY

Data-driven Sports Analyst enthusiast with a strong foundation in data visualization, statistical analysis, and Python. Proven ability to translate complex datasets into actionable insights through projects analyzing team performance, individual match statistics, and player metrics. Skilled in Streamlit, Python, and SQL, with a passion for leveraging technology to enhance sports performance and strategic decision-making. Adept at collaborating in technical environments and eager to contribute analytical expertise to a professional sports organization.

EXPERIENCE

Web Content Uploading Intern	GAOTek Inc. • Oct 2024 – Jan 2025
- Managed the end-to-end upload process for a minimum of 10 electronic products daily in WordPress, including image optimization and detailed description entry, maintaining data accuracy. - Applied advanced SEO strategies and keyword research to web content, resulting in improved search engine visibility and enhanced digital marketing performance. - Collaborated with senior team members to streamline content workflows and mentored junior interns, ensuring consistent productivity and high-quality standards across the team.	

PROJECTS

Euro 24 Shot Map
- Engineered an interactive UEFA Euro 2024 shot map dashboard using Python, Streamlit, and Pandas, enabling real-time performance analysis and dynamic filtering by teams and players. - Implemented data preprocessing and transformation techniques, including JSON parsing and conditional filtering, to structure and analyze event-based sports datasets efficiently. - Designed and integrated advanced visualizations using mplsoccer to generate shot maps, leveraging expected goals (xG) metrics for scalable, insight-driven graphical representation.
Book Recommender
- Built a book recommendation system using cosine similarity and Pandas pivot tables for personalized suggestions. - Processed ratings data to create a user-item matrix for collaborative filtering.
Resume Analyzer
- Built a resume analyzer backend using Python, integrating Gemini API for AI-based resume parsing and evaluation. - Performed NLP-based matching to compare resumes with job descriptions and extract key skills. - Designed RESTful APIs with PostgreSQL for storing and retrieving resume data and analysis results.

SKILLS

Programming Languages: Python, SQL, C++, Java, PHP
Web Development: ReactJS, NodeJS, API Integration
Database: MySQL, Postgre, MongoDB

EDUCATION

Bachelor of Computer Applications	Kristu Jyothi College of Management & Technology
Kottayam, India Mar 2025	
7.9 GPA	
Higher Secondary	St Berchmans' Higher Secondary School
Kottayam, India 2022	

CERTIFICATIONS

Programming In Modern C++	NPTEL
Certificate of Internship	GAOTek
Node.JS	NXTWave
